

## Personal

## Address

Centre for Quantum Information & Communication (QuIC)  
CP 165/59  
Ecole Polytechnique  
Université Libre de Bruxelles  
50 av. F. D. Roosevelt  
B-1050 Bruxelles  
Belgium

## Telephone

+32 2 650 2973

## Email

[pilyavets@gmail.com](mailto:pilyavets@gmail.com)

## PGP key

BDA0 699B 414F 5B00 8695 844A 57F8 2C72 347D 8201

## Citizenship

Russia

## Education

## University of Camerino

Italy. *Feb 2007 — Mar 2010*

*Doctor of Philosophy, Physics*

*Focus: Information Transmission through Gaussian Quantum Channels  
with Memory*

*Supervisor: Prof. Stefano Mancini*

P. N. Lebedev Physical Institute  
of the Russian Academy of Sciences

Moscow, Russia. *Jul 2006 — Aug 2009*

*Doctor of Philosophy, Physics*

*Focus: Probability Representation of Quantum Mechanics, Symplectic  
and Spin Tomography*

*Research project: Some Questions on Application of Probability Repre-  
sentation in Quantum Mechanics*

*Supervisor: Prof. Vladimir Man'ko*

## Moscow Institute of Physics and Technology (State University)

Moscow, Russia. *Sep 2004 — Jun 2006*

*Master of Science in Physics, Faculty of Physics and Power Problems*

*Major: Applied Mathematics and Physics*

*Focusing on plasmic power engineering*

*Research project: Development of Tomographic Representation Ap-  
proach for Solution of Some Problems in Mechanics*

*Advisors: Prof. Vladimir Man'ko and Prof. Anatoliy Napartovich*

## Moscow Institute of Physics and Technology (State University)

Moscow, Russia. *Sep 2001 — Jun 2004*

*Bachelor of Science in Physics, Faculty of Physics and Power Problems*

*Major: Applied Mathematics and Physics*

*Focusing on plasmic power engineering*

*Research project: Study of Optical Properties of Plane-Layered Structures*

*Advisor: Prof. Anatoliy Napartovich*

## Altai State University

Barnaul, Russia. *Sep 1999 — Jun 2001*

Faculty of Physics and Technology

## Journal publications

Here and below main  
coauthor is underlined

### Classical capacity of bosonic Gaussian quantum channels

- J. Schäfer, E. Karpov, R. García-Patrón, O. V. Pilyavets, N. J. Cerf. *Equivalence relations for the classical capacity of single-mode Gaussian quantum channels*. E-print arXiv:1303.4939 [quant-ph] (2013). *Phys. Rev. Lett.* **111**:3, 030503-1–030503-5 (2013).
- O. V. Pilyavets, C. Lupo, S. Mancini. *Methods for Estimating Capacities and Rates of Gaussian Quantum Channels*. E-print arXiv:0907.1532 [quant-ph] (2009-2011). *IEEE Trans. Inf. Theory* **58**:9, 6126-6164 (2012).
- C. Lupo, O. V. Pilyavets, S. Mancini. *Capacities of Lossy Bosonic Channel with Correlated Noise*. E-print arXiv:0901.4969 [quant-ph] (2009). *New J. Phys.* **11**:6, 063023 18pp (2009).
- O. V. Pilyavets, V. G. Zborovskii, S. Mancini. *Lossy Bosonic Quantum Channel with Non-Markovian Memory*. E-print arXiv:0802.3397 [quant-ph] (2008). *Phys. Rev. A* **77**:5, 052324-1–052324-8 (2008).

### Probability representation of quantum mechanics

- V. N. Chernega, O. V. Man'ko, V. I. Man'ko, O. V. Pilyavets, V. G. Zborovskii. *Tomographic characteristics of spin states*. *J. Russ. Laser Res.* **27**:2, 132–166 (2006).
- O. V. Man'ko, V. I. Man'ko, O. V. Pilyavets. *Probability representation of classical states*. *J. Russ. Laser Res.* **26**:6, 429–444 (2005).
- V. I. Man'ko, O. V. Pilyavets. *Entangled Gaussian states of a two-dimensional nonstationary damped oscillator*. *J. Russ. Laser Res.* **26**:4, 259–272 (2005).

## Conference proceedings

- O. V. Pilyavets, E. Karpov, J. Schäfer. *Superadditivity of classical capacity revisited*. In: H.-J. Schmiedmayer and P. Walther (eds.), *Proceedings of 11th International Conference on Quantum Communication, Measurement and Computing (QCMC)* (Vienna, Austria, 30 July – 3 August, 2012), *AIP Conf. Proc.* **1633**, 189–191 (2014).
- E. Karpov, J. Schäfer, O. V. Pilyavets, R. García-Patrón, N. J. Cerf. *Gaussian classical capacity of Gaussian quantum channels*. In: N. F. Morozov and I. Yu. Popov (eds.), *Proceedings of International Conference “Mathematical Challenge of Quantum Transport in Nanosystems — 2013” (Pierre Duclos Workshop)* (St. Petersburg, Russia, 13–15 March, 2013), *Nanosystems: Physics, Chemistry, Mathematics* **4**:4, 496-506 (2013).
- O. V. Pilyavets, V. G. Zborovskii, S. Mancini. *A Lossy Bosonic Quantum Channel with Non-Markovian Memory*. In: A. Lvovsky (ed.), *Proceedings of 9th International Conference on Quantum Communication, Measurement and Computing (QCMC)* (Calgary, Canada, 19–24 August, 2008), *AIP Conf. Proc.* **1110**, 123–126 (2009).

## Other publications

- V. I. Man'ko, O. V. Pilyavets, V. G. Zborovskii. *Probability representation of quantum mechanics: comments and bibliography*. E-print arXiv:quant-ph/0608251 (2006).

## Talks and posters

Coauthor who presented the work is underlined

- Contributed talk. J. Schäfer, E. Karpov, O. V. Pilyavets, N. J. Cerf. *Gaussian capacity of the single-mode Gaussian quantum channel*. 21st Central European Workshop on Quantum Optics (CEWQO), Brussels, Belgium. 23–27 June, 2014.
- Poster. O. V. Pilyavets, E. Karpov, J. Schäfer. *The channel environment that makes classical capacity superadditive*. XVII Conference on Quantum Information Processing (QIP), Barcelona, Spain. 3–7 February, 2014.
- Contributed talk. O. V. Pilyavets, E. Karpov, J. Schäfer, *et al.* *Transmission of classical information through Gaussian quantum channels*. Conference “Noise, Information & Complexity @ Quantum Scale” (NIC@QS), Ettore Majorana Centre, Erice (Sicily), Italy. 6–12 October, 2013.
- Poster. O. V. Pilyavets, E. Karpov, V. G. Zborovskii, S. Mancini. *Lossy Bosonic Quantum Channel with Fluctuating parameters*. Conference “Noise, Information & Complexity @ Quantum Scale” (NIC@QS), Ettore Majorana Centre, Erice (Sicily), Italy. 6–12 October, 2013.
- Poster. O. V. Pilyavets, E. Karpov, J. Schäfer. *Superadditivity of classical capacity revisited*. 11th International Conference on Quantum Communication, Measurement and Computing (QCMC), Vienna, Austria. 30 July – 3 August, 2012.
- Poster. O. V. Pilyavets, E. Karpov, J. Schäfer. *Superadditivity of classical capacity revisited*. 9th International Workshop “Continuous Variable Quantum Information Processing” (CVQIP), Copenhagen, Denmark. 27–30 April, 2012.
- Invited talk. O. V. Pilyavets, C. Lupo, S. Mancini. *Estimating capacities of Gaussian quantum channels*. Workshop “New Trends in Quantum Dynamics and Quantum Entanglement,” Trieste, Italy. 21–25 February, 2011.
- Poster. O. V. Pilyavets, C. Lupo, S. Mancini. *Classical Capacity of a Lossy Bosonic Channel with Memory*. Italian Quantum Information Science Conference (IQIS), Camerino, Italy. 24–29 October, 2008.
- Contributed talk. C. Lupo, O. V. Pilyavets, S. Mancini. *Capacities of Gaussian bosonic channel with memory*. Italian Quantum Information Science Conference (IQIS), Camerino, Italy. 24–29 October, 2008.
- Contributed talk. O. V. Pilyavets, V. G. Zborovskii, S. Mancini. *A Lossy Bosonic Quantum Channel with Non-Markovian Memory*. 8th Asian Conference on Quantum Information Science (AQIS), Seoul, Korea. 25–31 August, 2008.

## Other attended conferences, workshops, and meetings

- Device-Independent Quantum Information Processing and Quantum Algorithms Joint Meeting (DIQIP & QAlgo), Brussels, Belgium. 13–16 May, 2014.
- Quantum Computer Science, Device-Independent Quantum Information Processing, and Quantum Algorithms Joint Meeting (QCS, DIQIP & QAlgo), Paris, France. 14–17 May, 2013.
- One-day colloquium on Keccak and SHA-3 “Keccak & SHA-3 Day,” Brussels, Belgium. 27 March 2013.
- 10th Workshop on Continuous-Variable Quantum Information Processing (CVQIP), Paris, France. 30 January – 1 February, 2013.
- Conference “Noise, Information & Complexity @ Quantum Scale” (NIC@QS), Ettore Majorana Centre, Erice (Sicily), Italy. 4–10 November, 2007.

## Research visits

- Prof. Nicolas Cerf group.  
Centre for Quantum Information & Communication.  
Université Libre de Bruxelles, Brussels, Belgium.  
9 Nov 2009 — 13 Nov 2009.

## Current research interests

- Quantum channels with continuous variables
- Influence of correlations and memory on information transmission
- Applications of quantum computer science to cryptography

## Work experience

### Université Libre de Bruxelles

Brussels, Belgium. *Sep 2011 — Present*

*Position:* Post-doc in Centre for Quantum Information & Communication (QuIC), Ecole Polytechnique de Bruxelles

*Projects:* Post-doctoral grant “Ouvertures internationales”  
F.R.S.-FNRS (HIPERCOMM)

*Focus:* Capacities of bosonic Gaussian quantum channels

*Group leader:* Prof. Nicolas Cerf

### University of Camerino

Camerino, Macerata province, Marche region, Italy. *Apr 2010 — Apr 2011*

*Position:* Post-doc in Quantum Optics & Quantum Information Group of  
Physics Division, Faculty of Science and Technology

*Research project:* Quantum channels characterization

*Focus:* Influence of noise on classical capacity of lossy bosonic channel

*Group leader:* Prof. Stefano Mancini

### Troitsk Institute for Innovation and Fusion Research

Troitsk, Moscow region, Russia. *Oct 2003 — Jun 2006*

*Position:* Computer operator

*Focus:* Optical properties of plane-layered structures

*Group leader:* Prof. Anatoliy Napartovich
